### Website Update Plans

The hope is to develop our website and offer online booking for first-aid courses with more information regarding the cost, duration, and location of these.

A fundraising page will also need to be developed which incorporates an online store where our merchandise may be purchased. Items such as lapel pins, face shields, and first aid kits can be purchased.

As well as this, a 'bequests' section will be created, and a general 'volunteer now', 'fundraise', 'donate' option will be made available. The hope is to make online donation and volunteering more accessible.

Moreover, the organisation will continue to apply for more funding through grants with the goal of securing a vehicle to transport our volunteers to various events and courses in the future.

Well done to all members who have collected donations for us to use to purchase equipment.

The Board plan over the next 12 months is to update the website and make it easier to donate to us, including credit card donations via PayPal.

Our "Save a Limb, Save a Life" campaign will again be launched in the next quarter.
